adventure could continue.*

remains an adventure. With Locksor Zyta, you have the
right companion. With a surprising amount of space
and compartments for everything you'll need along the
way. With a convenient top cover and adjustable straps.

deerskin, and ostrich leathers. Made with masterful
handcraftsmanship and with exceptional attention
to detail.*

*Perhaps there are other ways to
carry things. But not with so much
joie de vivre.*

DON'T HAVE ANYTHING TO CARRY? A TRUE NATURAL PRODUCT IS ALWAYS A WELCOME COMPANION.

Locksor

Should Locksor one day build a second Noah's Arc, cattle, elk, lambs, deer, and ostrich would surely be on board. That's because Locksor Zyta is made from select full-grain leathers.

The one-of-a-kind grain pattern is a mark of the highest quality. That's because leather is a natural product. And only completely dyed through at Locksor. Subsequent embossing and structuring are out of the question. The same holds true for coatings and color applications. A direct feeling for leather can still be felt in every Locksor Zyta.

Only the most uniform parts are from the finest skins are used. Years of cutting experience guarantees that every Locksor Zyta offers an overall uniform image when completed. Every Locksor Zyta is then made with meticulous handcraft in countless production steps. The matching accessories are produced with the same amount of care, too.

Master handcraftsmanship down to the last detail. And in a range of choices that leaves no wish unsatisfied.

Locksor

Women think in practical terms.
Locksor Zyta is convenient with
the matching accessories.

All accessories are coordinated to go with Locksor Zyta. The leather and colors are identical to the bags. The ideal complements to individual tastes. Or by themselves. That's because the accessories are companions that you won't want to be without – even on their own.

What came first for you: Locksor Zyta or the accessory?

We don't know which smartphone Alexander von Humboldt would take with him in his specimen container today. Or writing instruments in cases that hold 1, 2, or 3 pens or pencils. Or whether he perhaps even had ink cartridges and business cards with him in the jungle. With the accessories from Locksor Zyta, though, he would have been well prepared.

Locksor Zyta also has inner values:
the cases for stylish protection.

Perhaps we'll invent a machine for handcraftsmanship one day. Until then, we'll do everything on our own. Locksor believes in the extraordinary found in small series with a passion for details – down to the most minute one. Locksor leather products are each made by skilled master craftsmen using a complex, multi-step process. The result: one-of-a-kind pieces that are as unique as the individuals to whom they bring a sense of joy. And there's also space for unique customer personalizations.
